Part III DETAILED ACTION

1. Claims 66-73 are pending.

Restriction/Election

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 66-67 and 69-70, drawn to an antibody to SEQ ID NO. 2 and methods of detecting SEQ ID NO. 2, using said antibody, classified in class 530, subclass 388.26.

Group II. Claims 66, 68-70, drawn to an antibody to SEQ ID NO. 15, and methods of detecting SEQ ID NO. 15, using said antibody classified in class 530, subclass 388.26.

Group III. Claims 66, 69 and 71-73, drawn to an antibody to the C-terminus of aggrecan, and methods of detecting the C-terminus, using said antibody, classified in class 530, subclass 380.

The inventions are distinct, each from the other because of the following reasons:

3. Groups I-III are unique products and methods. They differ with respect to their physicochemical properties and are therefore patentably distinct. Antibodies to SEQ ID NO. 2, 15 and to aggrecan are patentably distinct antibodies

4. Because a search of these three distinct inventions would not be co-extensive with a search of the others, an examination and search of two or more inventions in a single application would constitute a serious undue burden on the examiner.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor or at least one claim remaining in the application. Any amendment of the inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48 (b) and by the fee required under 37 CFR 1.17 (h).

7. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.
